Over 10,000 Commercial/Industrial Systems in Operation in over 100 Countries Worldwide

Seawater Desalination Systems from 150 up to Millions of Gallons per day

- Custom design with complete application engineering and process design. Packaged membrane treatment systems, pre-tested
- Technical documentation, support & training by experienced staff
- In-house engineering including complete automation and remote monitoring; Professional Engineers (P.E.)
- Proven components used throughout every system
- 30 years of experience reflected in our quality
- Manufactured and factory tested in our ISO 9001:2008 certified facility
- Conservatively engineered for reliable long-term performance

Maritime Series Watermaker System

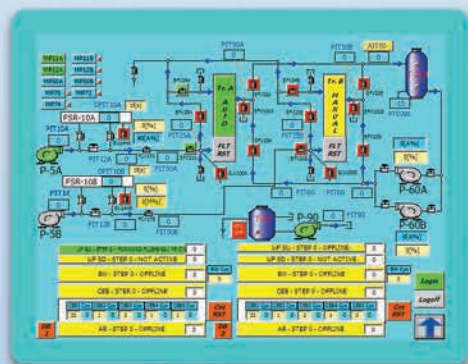

150 to 1,600 gallons per day

Engineered for reliable, long-term performance, the AMI Maritime Series watermaker's compact design makes them ideal for use on yachts, boats, cruise ships and resorts.

S Series Commercial Seawater Desalination

2,000 to 100,000 gallons per day

Perfectly suited for rugged marine environments, AMI's S Series Systems are used in applications such as hotels, resorts, navy, and off-shore platforms.

PLC Touch Screen

Custom Seawater Desalination

Applied Membranes has supplied complete systems with Energy Recovery, Data Logging, Containerized Systems, Explosion Proof Systems, Portable Systems for Military Operation, and many more, up to millions of gallons per day.
