\*(3.2gallon tank holds 2.8 gallons water. 2 Gal tank usable capacity is not specified – but can be estimated at 1.5 gallons – this unit produces at a much higher flow rate so tank size has little impact)

## OTHER PRODUCTS

### Standard Pitcher HD-62GWP

Carbon Filtration only for chlorine, taste and odor. Ideal for improving the flavor and removing chlorine from water supplies that are known to be safe.

### Alkaline Pitcher HD-55AWP

All benefits of the standard plus increasing pH by adding minerals to the water.

### Micropure HD-43MP

This is a ultrafilter to install on a bathroom or other sink to remove pathogens from water for the purpose of safely brushing teeth and washing face.
