

# Replacement Membrane & Filter Cartridges for Simple-Change™ RO Systems

AMI Simple-Change™ RO Systems are now obsolete and have been replaced by our NTR (No Tools Required) systems, but replacement parts are still available for purchase. Please find ordering information below.

- **Stage 1:** 5 Micron Sediment Filter to remove dirt, rust and other suspended particles
- **Stage 2:** Carbon Block Filter Cartridge to remove chlorine, taste and odor
- **Stage 3:** Thin Film RO Membrane to remove 99% of dissolved solids
- **Stage 4:** GAC Post Filter for final polishing of taste and odor

**Note: AMI Simple Change Filters are also compatible with Watts Kwik Change Filters Models Below**

## Replacement parts for 50SC Simple Change 50 GPD RO Systems (11" Cartridges)
